

Paula Nadelstern - Sixty Thirty Workshop (skill level: advanced beginner to advanced)
Saturday June 1, 2019 9 AM - 4 PM

In this 1 day class students will explore the possibilities offered by complex textiles while demystifying the nature of symmetry. Students will learn to draft perfect angles and sew dissimilar angles together. This product and process class is extremely satisfying and engaging, culminating in the creation of unique and fabulous kaleidoscope blocks. Often effects more wonderful than you imagine occur, making you both the one who makes the magic and the one who is surprised.

Supply List

Fabrics needed (when possible, Paula Nadelstern fabric will be available for sale in class.)

1 yard each of two different multi-colored, bilaterally symmetrical fabrics with 8 repeats. A motif with bilateral symmetry can be divided into identical halves by a line passing through the center. A fabric printed with 16 colors gets better results than one with fewer like five colors. The two fabrics should be different patterns, not necessarily matchy-matchy but work well together. Depending on the repeat size, this will be ample fabric for 3 to 4 blocks, which is sufficient for a 1-day class.

Unusual, hard to find supplies on the following list are marked with an asterisk and will be on sale in

SUPPLIES
*1. Sheets of see-thru plastic template material with an 8 to the inch grid with darker blue lines denoting inch lines. AVAILABLE FOR SALE IN CLASS : Visi-Grid (C&T Publisher)
